## **I. Overview of AB 75**

## **II. Criteria for Local Education Agency (LEA) Proposal**

## **III. General Requirements for all Providers**

## **IV. Requirements Specific to AB 75 Content Areas/Program Goals**

## Background and Acknowledgements

*AB 75 (Steinberg) Chaptered October 2001 (Chapter 697) establishes the Principal Training Program to provide incentive funding for Local Education Agencies (LEAs) to train school-site administrators. It requires the State Board of Education (SBE) to develop criteria for the approval of training providers, in consultation with the Commission on Teacher Credentialing (CTC) and other experts. The SBE convened an advisory group of principals, district administrators, and other experts, including a representative of the CTC, to provide input in their areas of expertise and review criteria for the approval of training providers. Advisory Group meetings also provided time for comments from the public.*

*The State Board of Education wishes to acknowledge the contributions and deliberations of the AB 75 Principal Training Program Advisory Group and would also like to thank the State Board of Education and California Department of Education staff members for their work on the development and implementation of these guidelines. In addition, thank you to Suzanne Tacheney, State Board Liaison to the Advisory Group, and Teresa Garcia, Assistant Secretary of Education, for their valuable input.*

The AB 75 Principal Training Program Advisory Group members

Dave Gordon	Superintendent, Elk Grove Unified School District
Angela Addiego	Principal, Belle Air Elementary School, San Bruno Park School District
Doris Alvarez	Principal, Pruess Charter School, San Diego Unified School District
Rowland Baker	Director, Technology Information Center for Administrative Leadership (TICAL) Santa Cruz County Office of Education
Linda Bond	Director, Office of Governmental Relations, California Commission on Teacher Credentialing
Genaro Carapia	Principal, 4th Street Elementary School, Los Angeles Unified School District
Paul Disario	Associate Superintendent, Business Services, San Juan Unified School District
Betsy Eaves	Director, K-12 English Language Arts Educational Leadership, Teacher Education and Professional Development, University of California, Office of the President
Dan Katzir	Director of Program Development, The Broad Foundation
Richard Navarro	Dean, College of Education and Integrative Studies, California State Polytechnic University, Pomona
Marjorie Thompson	Education Consultant, Retired Principal, Kelso Elementary, Inglewood Unified School District.

Ex officio members:

Joni Samples	Superintendent, Glenn County Office of Education, CCSESA representative
Jay Schenirer	Office of the Secretary of Education

California Department of Education Staff

Bill Vasey, Director of Curriculum Development and Professional Support  
Tom Lugo, Manager, Professional Development Unit

### **Overview of AB 75**

# **Section I**

## **Overview of AB 75**

### **Background & Perspective**

California has been engaged in a serious public school reform effort since the mid-1990s. The foundation for this reform rests on a belief in and commitment to increased academic expectations for every student. The public expects our schools to prepare its future citizens to meet world-class standards for excellence, productivity, and responsible citizenship.

The Governor, the Legislature, the State Board of Education, the State Superintendent of Public Instruction, and the Department of Education have been consistent and clear on the directed focus for K-12 school improvement in California. Policy makers and educational leaders, at all levels, have helped to develop and implement a systematic approach and related state level initiatives, that provide the leadership, curriculum focus, instructional materials, training, and resources necessary to make this vision a reality. These initiatives are grounded in the State Board-adopted grade level content standards and curriculum frameworks. Priority has been given to low performing schools and to improving the quality of instructional programs for every student in the public school system.

A major part of the state's reform effort revolves around the principles and practices of accountability. At the state level, the STAR testing program and the High School Exit Exam are in place to measure student achievement. Local school administrators are also being asked to monitor student results and establish specific student, class, and school level improvement goals. Teachers, too, are engaged in peer reviews and coaching/mentoring programs to improve instruction.

This background and perspective provided the basis for the development of these criteria and guidelines for the implementation of new legislative initiatives and the distribution of state resources within these new programs. The focus of all initiatives and resources is ultimately judged by their ability to improve student academic achievement.

### **Description of School Site Leadership**

The school site principals serve multiple and interconnected roles. First, and foremost, is the role of instructional leader for the school site. The principal is responsible for establishing the vision for student achievement; fostering commitment across, and providing guidance and support to, teachers and staff; and ensuring the full implementation of effective instructional programs with supporting technology. Ultimately, the principal is accountable for the collection and tracking of, and use of, student achievement data and results by all teachers and staff, providing feedback to teachers and staff on instructional delivery, and making continuous improvement in instruction, as necessary, until all students meet or exceed grade level content standards.

Secondarily, principals have management responsibilities for maximizing the financial, technological, and human resources of the school site, resolving the day-to-day challenges, and instilling an overall vision and focus. It is within this administrative leadership capacity that the principal ensures: a school site with qualified and competent teachers and staff; a clear plan with accountability for the use of financial, technological, and human resources; clear roles and

responsibilities for teachers and staff; ongoing training to enhance teacher learning and professional development; and a collaborative and productive environment where teachers, staff, aides, parents, volunteers, and students remain focused on, and committed to, a common vision and strategy for continuous learning and student achievement.

## **New Technology Resources**

New technologies are important for site administration. These tools can:

- Enhance the organization and analysis of students and staff data for planning and improvement efforts.
- Deliver professional development and student instruction.
- Help provide access to instructional resources for school staff and students.
- Modernize the management function of schools.

The Bill and Melinda Gates Foundation (Gates Foundation) has provided incentive matching funds for AB 75 professional development efforts.

## **Relationship to AB 466**

The heart of the most recent additions to California's school reform effort is AB 466. This teacher training program provides the basis and fundamental premise for improving student achievement. Our state believes that well prepared teachers provide quality, standards-based instruction for every student, at every grade level, on every day of school. AB 466 also requires every student to have State Board-, or local board-, approved instructional materials.

AB 75 provides the leadership, infrastructure, and support for AB 466. By training principals and vice principals as instructional leaders, we provide them with the skills and knowledge to guide teachers and instructional aides or paraprofessionals in their focused and concentrated efforts to improve student achievement.

## **Implementation of AB 75**

AB 75 provides funding for professional development focused on building principals' leadership skills and capacity to serve effectively in their critical and complex roles. The goal is to develop principals who come from a variety of contexts and challenging environments, who are able to establish sound and clear instructional goals, who collaboratively develop data-driven instructional strategies, and who lead a school through powerful instructional change. With these goals in mind, AB 75 training providers are expected to maintain a clear focus, throughout all training modules, on improving student achievement through increased accountability, standards-based instruction, curriculum frameworks, instructional materials, and use of pupil assessment instruments.

In addition to a clear focus on student achievement, the AB 75 training providers will be expected to design programs to fit the needs of individual LEAs, schools, and principals. Through collaboration with the LEAs, training providers are expected to individualize and differentiate the training program options to address various levels of principal experiences, current competencies, and prior training. Providers will also work in collaboration with LEAs and their possible partners (institutions of higher education and other educational entities) to plan and provide high quality, intensive, follow-up trainings. Exhibit 2 provides an overview of State Level Responsibilities for the

major functions of AB 75; Exhibit 3 provides an overview of LEA Responsibilities for the major functions of AB 75.

## **Target Schools & Population**

First priority, for the use of AB 75 and related funding, should be given to key administrative staff in “low-performing schools” and “hard-to-staff” schools” in order to address the professional development needs of these schools. Exhibit 4 provides terms and definitions for AB 75. In addition, AB 75 supports LEAs in their teacher and classroom professional development efforts funded under AB 466.

Key administrative staff includes principals and vice principals. For each administrator trained, LEAs will receive \$3000. A \$1000 match from the LEA is required. Gates Foundation dollars, secured to support the AB 75 program, can be used for 100 percent of the local match funding required for each principal and one half (50 percent) of the local match required for each vice principal, depending on overall participation rates of principals and vice-principals.

## **Training Modules**

AB 75 requires that principals receive training in the following Content Areas, identified in subsection 44511(a):

- (1) School financial and personnel management.
- (2) Core academic standards.
- (3) Curriculum frameworks and instructional materials aligned to the state academic standards.
- (4) The use of pupil assessment instruments, specific ways of mastering the use of assessment data from the Standardized Testing and Reporting Program, and school management technology to improve pupil performance.
- (5) The provision of instructional leadership and management strategies regarding the use of instructional technology to improve pupil performance.
- (6) Extension of the knowledge, skills, and abilities acquired in the preliminary administrative preparation program that is designed to strengthen the ability of administrators to serve all pupils in the school to which they are assigned.

AB 75 Content Areas (a) (1) through (6) are required by law; AB 75 Content Area (b), below, is optional.

- (b) The additional instruction and training areas that may be considered to improve pupil learning and achievement based upon the needs of participating schoolsite administrators, include pedagogies of learning, motivating pupil learning, collaboration, conflict resolution, diversity, parental involvement, employee relations, and the creation of effective learning and workplace environments.

Training for the AB 75 Content Areas will be provided in two phases, an Institute and Follow-Up Practicum. The entire training program is divided into 3 modules, with each module including guidelines for both the Institute phase and the Follow-Up Practicum phase. The modules are aligned with general competencies. This will enable LEAs to create an effective program using a team of providers, each with focused expertise and quality track records. Providers may apply to be approved

to provide training in one or more modules. Providers may only provide training for modules for which they have been approved by the State Board of Education. LEAs may also use an external provider for one or two modules, and apply to be their own provider for the remaining module(s). Given this flexibility, the State Board of Education still strongly encourages providers to develop and seek approval for complete programs (either alone or by forming partnerships with other providers) in order to be able to offer a complete training package to LEAs. This will be an attractive option for many LEAs, especially those representing small or medium size districts.

The three modules will be referred to as:

**Module 1:** Leadership & Support of Student Instructional Programs

**Module 2:** Leadership & Management for Instructional Improvement

**Module 3:** Instructional Technology to Improve Pupil Performance

AB 75 Content Area 6 will be included in each module and referred to as Extension of Knowledge, as it is intended to offer additional training in areas that are optional and specific to the LEA's follow-up needs. While it is anticipated that the Extension of Knowledge section will serve as all or part of the Follow-Up Practicum, it may also be included in the Institute. Additional training suggestions, as identified in subsection 44511(b), are included as alternatives for the Follow-Up Practicum related to Module 2.

Module 1 should emphasize the knowledge and actions required to lead and assist teachers in fully implementing the standards-based instructional programs approved by the local school board; and to plan, monitor, and act on assessment data for improving instruction and student achievement.

Module 2 should clearly focus on the elements necessary to align monetary and human resources to appropriate priorities to support and monitor effectiveness of instruction and improvement on student achievement.

Module 3 should focus on technology applications which link and support Module 1 and Module 2, in addition to serving a key role for process and system-wide improvements. Under the special funding and program considerations of the Gates Foundation, technology will not be merely a stand-alone component of the training, but rather will be embedded throughout the training as a tool to support the principal's work as an instructional leader.

## **Individualization**

It is the intent of AB 75 that all site administrators master the content described in Modules 1, 2, and 3. At the same time, the design of the AB 75 Principal Training Program offers multiple approaches to individualizing the program to match the different levels of skill and experience of principals. While it is not practical for providers to develop an individualized program to meet the needs of each individual participant, there are several ways in which the program must be differentiated. For Module 1, the basic training curriculum is differentiated by the principal's school level, as the State Board- or local board-adopted instructional materials serve as the basis for the training curriculum. Additionally, the Follow-Up Practicum offers significant opportunities for individualization: LEAs and providers will collaborate to develop and plan a diverse range of follow-up activities that are appropriate to the skill level and experience of the individual principal.

In addition, for all modules, the LEA may request that providers offer an advanced curriculum in the same content areas, provided the LEA identifies enough principals to constitute a regular class size. It is suggested that LEAs wishing to offer an advanced program confirm, before contracting, that

prospective providers have the capacity and willingness to do this. This will allow more advanced principals to interact with peers who have similar levels of skill and experience. Providers should work with LEAs to determine the appropriate content for the advanced level. The advanced level may include content similar to the basic curriculum, at a more advanced level, or may include additional content beyond what is required in the basic curriculum. In either instance, the LEA must ensure that each participant has had the opportunity to master the content and the desired participant results listed in each module. (Note: Providers are required to develop, and submit for approval, the basic curriculum only.)

In those rare circumstances where there is substantial evidence that an individual principal has already mastered the basic (and advanced, if available) content being offered by the provider, the LEA may waive a principal out of the training module(s) offered by the provider and instead provide an alternative module or course that is equal in time duration and rigor to the standard training. It is the responsibility of the LEA to assess and retain evidence that the principal has mastered a preponderance of the content in the relevant module, following the requirements listed below. In addition, it is the responsibility of the LEA, in consultation with the provider and the individual, to determine an alternative course of professional development this is equal in time duration and rigor to the standard training. The LEA may consider collaborating with the provider to establish a coaching, mentoring, or leadership role for the individual (within select portions of the training), allowing for further leadership development of the individual as well as benefiting peers.

The expectation is that the option to participate in an alternative course of professional development will be exercised by only a small percentage of exceptional administrators. LEAs will be required to keep records on the number (and percentage) of principals who are waived out of the regular training program and a written detailed description of the alternative course of professional development. In addition, all assessments given as part of the standard training shall also be given to principals who are participating in the alternative course of professional development.

Below are the requirements for individual principals to be waived out of the standard training offered by the provider and into an alternative course of professional development:

### **Module 1:**

- Principal must have previously participated in AB 466 training, or PDI training, or other training that included explicit training on instructional materials adopted by the State Board of Education in 2001 or later, (LEA must retain evidence of this prior training), or LEA must have assessed that the principal has already mastered a preponderance of the “desired participant outcomes” of Module 1 (LEA must retain evidence of this assessment).
- LEA must determine, in consultation with the provider and the individual, an alternative course of professional development that meets the legislated time requirements and covers content only in the legislated content areas.

### **Modules 2 and 3:**

- Principal must have previously participated in training comparable in content and rigor to the standard training that the provider is offering (LEA must retain evidence of this prior training), or the LEA must have assessed that the principal has already mastered a preponderance of the “desired participant outcomes” of the module(s) (LEA must retain evidence of this assessment).

- LEA must determine, in consultation with the provider and the individual, an alternative course of professional development that meets the legislated time requirements and covers content only in the legislated content areas.

## **Breadth and Depth of Training Curriculum for Modules**

While the guidelines and criteria for each module are comprehensive, they are intended to be flexible. Criteria in boldface type are critical and mandatory; other criteria are not mandatory but should serve to guide the general direction and depth of the provider's curriculum. The criteria were not written in an order to reflect priority nor to present themselves as independent elements. For Module 1, all criteria are mandatory. Proposals for Modules 2 and 3 will be evaluated on whether the curriculum for the standard training program addresses a preponderance of the content covered in the guidelines and criteria. Although providers have flexibility in the content of the program, they must propose, for state approval, all of the content they seek to offer.

It is expected that the provider will design a curriculum to satisfy state requirements but will also collaborate with the LEA and modify the curriculum as needed to satisfy the LEA's and participants' needs. Each provider will determine the most effective method of delivering instruction. The provider must be responsive to the minimum hours for each module, though additional hours may be included as LEAs may negotiate for hours above and beyond the training curriculum submitted (likely no more than 10 additional hours per module).

The content within Modules 2 and 3 is highly integrated, as it should be, to enable principals to effectively fulfill both instructional leadership and management responsibilities. The LEAs should collaborate and negotiate with providers in order to ensure integration of all content as well as to avoid unintended redundancy.

Exhibit 1, the Principal Training Program Professional Development Modules and AB 75 Content Areas, illustrates the relationship between the three modules, the AB 75 Content Areas, and the service phases (Institute and Follow-Up Practicum).

## **Special Circumstances**

Small LEAs and individual charter schools are strongly encouraged to form or join consortia to constitute a critical mass of participants to allow for differentiated training specific to the participants' school level and/or textbook adoption. Alternative methods of delivery (e.g. use of online technologies) will be considered if centralized training is not possible due to problems caused by geographic disbursement, or if the provider is proposing an experimental or pilot program. The provider will need to describe the nature of the problem or the experimental program, as well as the rationale for the proposed alternative.

Providers serving LEAs or consortia that represent multiple adoptions should instruct using the most commonly adopted instructional program and make efforts to reference the other adoptions used by the participants. Providers that anticipate serving LEAs or consortia that have very few participants should describe how they will organize training to meet the differentiated needs of elementary, middle, and high school principals. Providers who use alternative formats are still responsible for providing training that will accomplish a preponderance of the "desired participant results" for each participant at each level.

## **Requirements for Submission**

The following sections present proposal and plan requirements for LEAs and training providers. While the criteria are defined independently, it is the intent that these entities work in a collaborate manner to satisfy the requirements.

LEAs are required to submit the online LEA Program Proposal Form (See sample, Attachment D) to request incentive funding. Section II provides a guide with general criteria and requirements for LEA proposals. If the LEA is also applying as a provider, the LEA is required to complete the Provider Application Form described below.

Prospective providers should use the Provider Application Form (Attachment E) to apply for approval from the State Board, using Section III and Section IV as guides. Section III provides general criteria for all providers, regardless of which module(s) they are applying for. Providers are required to submit to the State Board of Education all assurances and documentation listed in Section III. Sections IVa, b, and c outline criteria for providers, specific to each module, and should guide the development of the training curriculum of each module submitted for approval.

### **Terms & Definitions**

For purposes of this article, AB 75, Article 4.6, Section 44510, Chapter 3, Part 25 of the Education Code, the following terms have the following meanings:

1. "Hard-to-staff school" means a school in which teachers holding emergency permits or credential waivers make up 20 percent or more of the teaching staff.
2. "Local education agency" means a school district, a county office of education, or a charter school.
3. "Low-performing school" means a school in the bottom half of all schools based on the Academic Performance Index rankings established pursuant to subdivision (a) of Section 52056.
4. "Schoolsite administrator" means a person employed on a full-time or a part-time basis as a principal or a vice principal at a public school in which kindergarten or any of grades 1 to 12, inclusive, are taught.

## **Section II**

# **Guidelines and Requirements for Local Educational Agency Proposal**

Section II provides guidelines and requirements for LEAs applying for AB 75 funding. The State Board of Education will review and approve these applications. LEAs, by definition, include districts, charter schools, and county offices of education. The LEA proposal form is an online application. Attachment D is a sample of the online form.

## AB 75 – The Principal Training Program

### Section II – Guidelines & Requirements for Local Educational Agency Proposal

To receive incentive funding, a Local Educational Agency (LEA) must submit a program proposal to the SBE for approval. (Cit: 44512(a)). If the local educational agency, independently or together with a qualified provider, establishes and implements a well-designed plan for providing principal training under AB 75 that successfully meets or exceeds the criteria established by the State Board of Education, they will be approved and funded.

Proposal Components	AB 75 LEA Guidelines & Requirements LEA must...	AB 75 Required Assurances & Documentation LEA must submit for approval...
A. Program Description	<ul style="list-style-type: none"> <li>• Address all specifications of content for training and Follow-Up Practicum in paragraphs (1) to (6) of subdivision (a) of Section 44511.               <ol style="list-style-type: none"> <li>1. E. Training Agreements & Partnerships	<ul style="list-style-type: none"> <li>Use only SBE approved providers for each module for initial Institute and Follow-Up Practicum (Cit: 44513 (B)).</li> <li>Provide plan to continue on-going professional development for principals after completion of AB 75 training program.</li> </ul>	<ul style="list-style-type: none"> <li>Assurance that only SBE approved provider(s) are hired for Institute and Follow-Up Practicum.</li> <li>Assurance that LEA will continue on-going professional development for principals after completion of AB 75 training program.</li> </ul>

## **Section III**

### **General Requirements for All Providers**

Section III provides guidelines and requirements for AB 75 training providers. Requirements for AB 75 include the State Board of Education's review and approval of the training provider plan and curriculum. Providers must submit a copy of their basic training curriculum for modules for which they seek approval to deliver. The provider application form is provided in Attachment E. The following chart identifies both the guidelines and requirements (left-hand column) and the specific documentation required (right-hand column).

### Section III – Guidelines and Requirements for Providers

If the provider(s) develops and proposes a well-designed Principal Training Program that successfully meets or exceeds the overall criteria, as well as the criteria for each Module for which approval is sought, they will be approved as an AB 75 training provider. The ultimate goal is to develop principals who can establish sound and clear instructional goals; who can collaboratively develop data-driven decisions, and be knowledgeable about academic content and effective instructional strategies; and who have the skills to lead a school through powerful academic instructional program change.

Proposal Components	AB 75 Provider Guidelines & Requirements Provider must...	AB 75 Required Assurances and Documentation Provider must submit for approval...
A. Program Description	<ul style="list-style-type: none"> <li>• Demonstrate that the program will provide intensive and ongoing, professional development in the AB 75 Content Areas, both as part of the Institute and Follow-Up Practicum services.</li> <li>• Assure collaboration with LEAs to ensure that the training will be congruent and consistent with current teacher professional development efforts in districts and schools.</li> <li>• Assure that proposed training is congruent and consistent with AB 466 professional development efforts in the district and other improvement efforts for low-performing and hard-to-staff schools.</li> </ul>	<ul style="list-style-type: none"> <li>• Assurance of support of the AB 75 Content Area goals and provide intensive and ongoing professional development.</li> <li>• Assurance of willingness to collaborate with LEAs to deliver appropriate professional development programs for meeting district priorities.</li> <li>• Assurance that Module 1 is congruent and consistent with AB 466 professional development efforts with teachers and instructional aides or paraprofessionals.</li> </ul>
B. Curriculum	<ul style="list-style-type: none"> <li>• Provide an instructor's training curriculum (manual) that addresses a preponderance of the criteria and guidelines in each relevant Module and includes an approximate agenda, a majority of the overheads used by the provider/instructor, and citations for a majority of materials to be included.</li> </ul>	<ul style="list-style-type: none"> <li>• Copy of training curriculum (manual) that addresses a preponderance of the criteria and guidelines in each relevant Module and includes a timed agenda, all of the overheads used by the provider/instructor, and citations for all materials to be included.</li> </ul>
C. Qualifications and Expertise	<ul style="list-style-type: none"> <li>• Provide evidence of experience and qualifications to deliver training to principals and vice principals.</li> <li>• Provide evidence of knowledge and expertise in the relevant content areas.</li> <li>• Provide assurance of capacity that provider can deliver trainings for at least three years, from 2002 to 2005.</li> <li>• Provide description of trainers and qualifications, including possible trainers and/or mentors to provide Follow-Up Practicum and ongoing support for AB 75 content area(s).</li> <li>• Provide description of instructor certification and quality control processes.</li> </ul>	<ul style="list-style-type: none"> <li>• Evidence of relevant training experience, including list of previous clients, type of training programs provided, and brief narrative describing knowledge and expertise in the relevant content areas.</li> <li>• Assurance of capacity to provide 3 years of training services.</li> <li>• Documentation of lead instructor(s) (including all subcontracted lead instructors) to deliver Institute training, including resumes.</li> <li>• Documentation of instructor certification process, including: 1) qualifications required of instructors; 2) description and number of days of training provided to instructors; and 3) ongoing quality control quality process to maintain effectiveness of instructors.</li> <li>• Description of professional development personnel to deliver Follow-Up Practicum training.</li> </ul>

Proposal Components	AB 75 Provider Guidelines & Requirements Provider must...	AB 75 Required Assurances and Documentation Provider must submit for approval...
D. Training Methods & Delivery	<ul style="list-style-type: none"> <li>Assure collaboration with LEAs to ensure that principals receive training that is appropriate to adopted instructional program and general levels of skill and experience.</li> <li>Assure that total class size typically will not exceed 35 participants, with 1 Instructor for up to 24 participants and 2 Instructors for 25-35 participants to alternate over the course of the training.</li> <li>Estimate of the number of authorized trainers to be available in 2001-02, 2002-03, &amp; 2003-04.</li> <li>Assure that program has capacity to serve total number of participants).</li> <li>Describe any distance learning technology used for the delivery of the Institute or Follow Up Practicum, (only necessary if proposed by provider under special circumstances).</li> <li>Ensure that any technology on which participants will be trained (e.g. software applications) is practical, available at the participant schools, likely to be utilized by participants, and related to the AB 75 Content Area goals.</li> </ul>	<ul style="list-style-type: none"> <li>Assurance to collaborate with the LEA in the planning and delivery of the Institute trainings and Follow-Up Practicum.</li> <li>Assurance on trainer to participant ratios.</li> <li>Estimation of number of authorized trainers to deliver institute training over the next three years.</li> <li>Description of any distance learning technology used for the delivery of the Institute or Follow Up Practicum, (only necessary if proposed by provider under special circumstances).</li> <li>Assurance that technology on which participants will be trained (e.g. software applications) is practical, available at the participant schools, likely to be utilized by participants, and related to the AB 75 Content Area goals.</li> </ul>
E. Evaluation & Reporting	<ul style="list-style-type: none"> <li>Agree to collect and report attendance data on all participants, including: Name, School, Title; Address; Attendance; and Make-Up Attendance.</li> <li>Agree to administer Institute survey, rating instructors and content on final day of Institute.</li> <li>Agree to support CDE requirements to collect, track, and report on information needed for interim and final reports for submission to the legislature (Cit: 44516 (a) (b)).</li> <li>Agree to administer state-designated technology pre- and post-assessments, to satisfy Gates Foundation Grant requirements.</li> </ul>	<ul style="list-style-type: none"> <li>Agreement to collect and report attendance data on all participants (including retention of records).</li> <li>Agreement to survey participants on quality of instructors and content.</li> <li>Statement of intent to collaborate with LEA to provide information required by CDE.</li> <li>Agreement to administer state-designated technology pre- and post-assessment, to satisfy Gates Foundation Grant requirements.</li> </ul>
F. Assurance of Proprietary Rights	<ul style="list-style-type: none"> <li>Acknowledge that proprietary rights of provider's training curriculum will be protected.</li> </ul>	<ul style="list-style-type: none"> <li>Acknowledgement and acceptance of their proprietary rights to their provider training curriculum.</li> </ul>

## **Section IV**

### **Requirements Specific to Modules & AB 75 Content Areas**

Section IV provides the guidelines and requirements for each of the training modules. The focus of administrator training is on instructional management and leadership. Technology is integrated throughout the modules and is used as a tool for improving instruction and school management. The following charts identify the guidelines and requirements for provider's training program (left-hand column), the desired participant results in the form of knowledge and skills (central column), and the relationship to other modules (right-hand column).

## **Module 1: Leadership and Support of Student Instructional Programs**

### **AB 75 Content Areas 2, 3, and 4**

If principals serve as effective instructional leaders, they will increase their overall student achievement, as measured by SAT 9, the California standards tests, and other assessments, and decrease the time required to effectively implement their instructional strategy. Specifically, the training program for AB 75 content areas 2, 3, and 4 will build skills and capacity necessary to: 1) establish and communicate state and district visions and goals for student focused instructional improvement; 2) create awareness and familiarity with state standards for all instructional team members and core subjects; 3) guide the full implementation of approved instructional program texts and materials; 4) direct and support proven staff training and professional development activities for uniform instruction and materials use; 5) manage data and assessment for the purpose of guiding teacher decisions regarding student interventions and school site instructional practices; and 6) fully utilize technology and fiscal and human resources for the purpose of student academic success.

Principals must be prepared to lead their schools through powerful academic improvement program change that produces improved student achievement and school success.

*Requirements for coverage of standards-based, adopted instructional materials by school levels:*

<b>ELEMENTARY (K-5/6)</b>	<b>MIDDLE (6-8)</b>	<b>HIGH (9-12)</b>
ONE academic core content area: either reading-language arts or mathematics (both optional).	TWO academic core content areas: English, reading-language arts (either 6-8 basic or intervention programs), and mathematics (both are required)	ONE academic core content area or combinations: English/reading-language arts, mathematics, history-social science, science

## AB 75 Content Areas 2, 3, and 4

### **Extension of Knowledge**

*Provider must develop a plan to communicate, monitor, and assist in carrying out a set number of hours of activities associated with the Module 1 Institute. This Follow-Up Practicum can technically take two years to complete after the training institute begins. However, it is recommended that the practicum be completed by the end of the initial year of participation. It is recommended that the provider and LEA jointly develop the Follow-Up Practicum plan. It is not required that the provider submit the plan for approval. It is suggested that the follow-up activities link with content provided in the Institute and be designed to be serve the practical needs of principals at different levels of skill and experience.*

#### **Some possible practicum activities could include:**

- Networking with principals who participate in Institute to discuss status on implementation of board adopted, standards-based instructional programs.
- Mentoring opportunities for principals who participated in the Institute
- Writing summaries and analysis of school wide course data on student progress and achievement or state testing data on student achievement over several years.
- Participating in AB 466 teacher and/or instructional aides professional development Institute for one or more of the instructional programs used by school's faculty members.
- Attending, when appropriate, faculty meetings focused on implementation of adopted, standards-based instructional programs and/or sharing classroom level curriculum-embedded assessments (i.e., on instructional delivery or student progress.)

## Module 2: Leadership & Management for Instructional Improvement

### AB 75 Content Area 1: School Financial & Human Resources

If principals maximize the financial and human resources of the school site, they will increase their overall student achievement, as measured by SAT 9, the California standards tests, and other assessments, and decrease the time required to effectively implement their instructional strategy. Specifically, the training program for AB 75 content area 1 will build skills and capacity necessary to: 1) instill an overall vision and focus; 2) ensure a school site with qualified and competent teachers and staff; 3) communicate a clear plan with accountability for the use of financial, technological and human resources; 4) provide ongoing coaching and training to enhance teacher learning and professional development; 5) resolve day-to-day challenges; and 6) develop a collaborative and productive environment where teachers, staff, aides, parents, volunteers, and students remain focused on, and committed to, a common vision and strategy for continuous learning and student achievement.

### Leadership & Management for Instructional Improvement

*Provider must develop a plan to communicate, monitor, and assist in carrying out a set number of hours of activities associated with the Module 2 Institute. This Follow-Up Practicum can technically take two years to complete after the training institute begins. However, it is recommended that the practicum be completed by the end of the initial year of participation. The provider and LEA will need to confirm a plan. For purposes of submitting a provider plan for approval, it is suggested activities link with content provided in the Institute and be designed to serve the needs of principals at different levels of skill and experience.*

#### **Some possible practicum activities could include:**

- ❑ Follow-up with principals who participate in Institute to assess and expand progress of district against school mission, goals, district budget (including linkage with school mission) and action plan.
- ❑ Mentoring and coaching opportunities for principals who participated in the Institute.
- ❑ Additional instruction and training in areas, as outlined below:
  - Coaching and mentoring on motivating pupil learning in order to understand and be able to apply interventions needed to help teachers motivate students and to build commitment to learning improvements.
  - Coaching and mentoring in increasing involvement of, and communication with, parents within communities in order to build commitment and support for academic improvement.
  - Coaching and mentoring for addressing specific issues and challenges of human resource management (hiring, firing, retention, involvement, productivity, competency development).
  - Coaching and mentoring on building collaboration and consensus across teachers, parents and communities.
  - Coaching and mentoring on building awareness of diverse cultures, in order to increase comfort with working within diverse cultures, resulting in students being treated and served equitably.
  - Coaching and mentoring on conflict resolution processes and techniques between and within schools and communities.
  - Coaching and mentoring on improving the safety and atmosphere at the schools, improving the learning environment, reducing conflicts on campus, and freeing up administrator's time to be spent on teaching and learning.

### Module 3: Instructional Technology to Improve Pupil Performance

#### AB 75 Content Area 5

If principals maximize their use of instructional technology, they will increase their overall student achievement, as measured by SAT 9, the California Standards Tests, and other assessments, and decrease the time required to effectively implement their instructional strategy. Principals need to have a strong working knowledge of the use of technology and its relationship to school management, accountability, and the delivery and assessment of instruction to students and staff. In addition, the principal needs to understand how to connect to and navigate through the school to the vast amount of available instructional resources for classroom and school use.

### **Extension of Knowledge**

*Provider must develop a plan to communicate, monitor, and assist in carrying out a set number of hours of activities associated with the Module 3 Institute. This Follow-Up Practicum can technically take two years to complete after the training institute begins. However, it is recommended that the practicum be completed by the end of the initial year of participation. The provider and LEA will need to confirm a plan. For purposes of submitting a provider plan for approval, it is suggested activities link with content provided in the Institute and be designed to serve the needs of principals at different levels of skill and experience.*

#### **Some possible practicum activities could include:**

- Follow-up with principals who participated in Institute to assess and expand effectiveness of use of technology for data-driven decision making.
- Follow-up with principals who participated in Institute to assess and expand district's use of, and coordination across, multiple databases to collect, store, track, and analyze various types of information, including student, personnel, fiscal, and other information.
- Follow-up with principals who participate in Institute to assess and expand use of technology resources and support.
- Mentoring and coaching opportunities for principals who participated in the Institute.
- Writing summaries and analysis of related initiatives and progress.

### AB 75 LEA Online Program Proposal For State Board of Education Approval

#### 1. General Requirements & Information

LEA \_\_\_\_\_ County/District Code \_\_\_\_\_  
 Charter School (Direct Funded) \_\_\_\_\_ County/District/School Code \_\_\_\_\_  
 Address \_\_\_\_\_ City \_\_\_\_\_ ZIP Code \_\_\_\_\_  
 Program Contact \_\_\_\_\_ Title \_\_\_\_\_  
 Phone Number \_\_\_\_\_ E-Mail \_\_\_\_\_ FAX \_\_\_\_\_

#### 2. Assurances and Documentation

##### A. Program Description

- ☐ 1. Assure that the training program (Institute and Follow-Up Practicum) meet specifications identified in the Education Code, paragraphs, 1-6 of subdivision (a) of section 44511.

##### B. Target Schools and Audiences

- ☐ 1. Assure that principals from "low-performing schools" and "hard-to-staff" schools are given priority to receive training.
- ☐ 2. Assure that the LEA will designate which principals will participate.
- ☐ 3. Assure that all participants are required to complete the minimum time requirements of the Institute training (80 hours) and the Follow-Up Practicum (80 hours) within a two-year period.

##### C. Expenditure Plan

- ☐ 1. Indicate the number of principals and vice principals to be trained each year under a three-year expenditure plan. (LEAs shall receive \$3,000 per school site administrator for training up to one-third of their principals and vice principals in FY 2001-02, one-third in FY 2002-03, and one-third in FY 2003-04. Funding for FY 2002-03 and FY 2003-04 is contingent upon approval of the state budget.
- ☐ 2. Assure sources of matching funds for principals and vice principals trained. (Districts are required to provide \$1,000 in matching funds per school site administrator trained. The Bill and Melinda Gates Foundation will provide \$1000 in matching funds for each principal trained and up to \$500 for each vice principal trained based on overall participation in the program.
- ☐ 3. Assure that the LEA will maintain auditable fiscal records.

#### AB 75 Three-Year Expenditure Plan (LEAs will enter information online and funding amounts will automatically calculate)

Administrator Name and Type	Number Trained	Proposed Three-Year Expenditure Plan \$3,000 per participant	Year 1 FY 01-02	Year 2 FY 02-03	Year 3 FY 03-04	Gates Matching Funds \$1,000 per Principal	Year 1 FY 01-02	Year 2 FY 02-03	Year 3 FY 03-04
Principals		Number principal x \$3,000 =	\$	\$	\$	Number principals x \$1,000 =	\$	\$	\$
Vice Principals		Number vice principal x \$3,000 =	\$	\$	\$	Up to \$500 x number vice principals =	\$	\$	\$
<b>Total Trained</b>		<b>Total AB 75 Funding</b>	\$	\$	\$	<b>Total Gates Funding.</b>	\$	\$	\$

##### D. Evaluation and Reporting

- ☐ 1. Assure that the LEA will provide data for the CDE and SBE interim and final reports, and maintain records as listed in Attachment A.
- ☐ 2. Assure that formal agreements between LEA and provider(s), if applicable, include a plan to meet CDE and SBE reporting requirements.

##### E. Training Agreements and Partnerships

- ☐ 1. Assure that the LEA uses only SBE approved training providers for the initial Institute and Follow-Up Practicum.
- ☐ 2. Indicate plans to continue ongoing school site administrator professional development.

Check all that apply: ☐ workshops and conferences ☐ coaching and mentoring ☐ discussion boards  
☐ on-line training ☐ e-mail communication ☐ other (explain)

**(Note: No actual signature will be entered or submitted on a hard copy form. The LEA will certify online through an assigned LEA user name and password provided in the LEA application information which will be mailed to districts.)**

## **Certification**

I hereby certify that our LEA (School district, county office, charter school) will comply with all provisions of AB 75 and assurances agreed to in the AB 75 LEA Program Proposal Form.

# AB 75 Provider Application Form for State Board of Education Approval

## 1. General Requirements & Information

Provider Organization _____ <small>(NAME)</small>	California LEAD Representative _____ <small>(NAME, TITLE)</small>
<i>Please indicate type of organization:</i> <input type="checkbox"/> LEA or Public Agency <input type="checkbox"/> Non Profit Organization <input type="checkbox"/> Private or For Profit Organization <input type="checkbox"/> Other (please describe)	Address _____ City _____ Zip Code _____ Phone Number _____ Fax: _____ E-Mail: _____ Website: _____

**Service Modules:** Indicate which training service modules and content areas that your organization will provide, for both the initial institute and the Follow-up Practicum. If the follow-up needs and supporting activities are not clearly identified at this time, please indicate these as preliminary for purposes of this approval process.

- ☐ **MODULE 1 - Leadership and Support of Student Instructional Programs (for Content Areas 2, 3, 4):**  
     *Area 2      Core academic standards*  
     *Area 3      Curriculum frameworks and instructional materials aligned to the academic standards*  
     *Area 4      The use of pupil assessment instruments, specific ways of mastering the use of assessment data from the Standardized Testing and Reporting Program, and school management technology to improve pupil performance*
- ☐ **MODULE 2 - Leadership and Management for Instructional Improvement**  
     *Area 1      Exemplary school financial and personnel management practices*
- ☐ **MODULE 3 - Instructional Technology to Improve Pupil Performance**  
     *Area 5      The provision of instructional leadership and management strategies regarding the use of instructional technology to improve pupil performance*

### A. Program Description

- ☐ 1. Is committed to AB 75 Content Area Goals and requirements.
- ☐ 2. Will collaborate with LEAs and/or other partners, as necessary, to deliver professional development.
- ☐ 3. Will ensure that Module 1 is congruent and consistent with AB 466 professional development efforts.

### B. Training Curriculum

- ☐ 1. Have attached the instructor's training manual for the basic curriculum that includes a timed agenda and all materials to be used.
- ☐ 2. Have developed a training curriculum that meets a preponderance of the established guidelines and requirements.

## AB 75 Provider Application Form, Page 2

### C. Provider Qualifications and Expertise

- ☐ 1. Have attached the evidence of training experience, including: list of previous clients, type of training programs offered, and brief, narrative describing knowledge and expertise in relevant content areas.
- ☐ 2. Can give assurance of capacity to provide 3 years of training services.
- ☐ 3. Have attached a description of the lead training provider(s) and all subcontractor provider partners and included resumes for these persons.
- ☐ 4. Have attached description of instructor certification process, including: 1) qualifications required of instructors; 2) description, and number of days, of training provided to instructors; and 3) your ongoing quality control process to maintain effectiveness of instructors.
- ☐ 5. Have described anticipated trainers and/or mentors to provide Follow-up Practicum and ongoing support for AB 75 content area(s).

### D. Training Method and Delivery

- ☐ 1. Will collaborate with LEAs to plan implementation of training.
- ☐ 2. Will guarantee quality training setting and delivery, including: total class size typically will not exceed 55 participants, with 1 instructor for up to 24 participants and 2 instructors for 25-35 participants.
- ☐ 3. Have estimated below the total number of authorized trainers available to deliver Institute training:  
\_\_\_\_\_ 2001-02 \_\_\_\_\_ 2002-03 \_\_\_\_\_ 2003-04
- ☐ 4. Have attached description of any distance learning technology used for the delivery of the Institute or Follow-up Practicum (only necessary if proposed by provider under special circumstances).
- ☐ 5. Will ensure that any technology on which participants will be trained, is practical, is available at the participant schools, is likely to be utilized by participants, and is related to the AB 75 Content Area goals.

*\* Please note: Technology should be integrated in all modules and in the delivery of training when appropriate.*

### E. Evaluation and Reporting

- ☐ 1. Will collect and organize participant information, attendance, and accomplishments.
- ☐ 2. Will survey participants on quality of instructors and content at end of training institute.
- ☐ 3. Will support LEA's and CDE's mandatory information needs as listed in Attachment A.
- ☐ 3. Will administer state-designated technology, pre- and post-assessment, to satisfy Bill and Melinda Gates Foundation Grant requirements.

**F. Please Note:** Provider maintains proprietary or copyright over its training curriculum as submitted for this state program.
